BEST CHOICE OF MAN.

I will not wed a millionaire, to be accused of greed; if he should chance to pass away a bit before his time. A poor man's wife I'll never be to bake and stew and broil; with a half a dozen little ones to add to all my.

I will not wed a handsome man, a "sport" would not suit me; They're bound to have another wife, and sometimes two or three. A homely man is not my style—a "dude" I would detest.

I could not love a solem man nor one who's prone to jost.

will not wed the man who seeks for years my love to gain;

the very slowness of his suit would always bring me pain.

I will not wed the man who claims to love me at first glance.

In fact, I will not wed at all—until I get a chance.

In Maysville Tomorrow Night.—Probably no play from the pen of a native playwright has afforded good, wholesome fun and genuine starting sensations to a greater number of the old and young, high and low, than "The Phoenix." Writers for the press, who tried to bury it under columns of ridicule fifteen or eighteen years ago, have to almost regard it as a classic, contrasted with the rot and rubbish with which English builders of machine plays have deluged us during the last fifteen years. Mr. Nobles has frequently said that the wonderful vitality of the play is a greater surprise to him than it can possibly be to anyone else. Theoder Chanfrau said the same thing of Kit, and although dislotted to play the part for years before his death, but the public demanded it and would go to him in nothing else.

Remember this great play will be at Washington Opera house tomorrow evening.

THEY CAN'T AGREE.

The Committee That "Investigated" Attorney General Jack Hendrick.

The Joint Judiciary Committee which has been investigating the official conduct of Attorney General Hendrick on account of the reflections thrown upon his action in compromising railroad suits, and which was referred to in Governor Brown's message, has agreed to disagree, and two reports will be made.

The majority report, signed by all of the committee except Messrs. Hanks, Vance, Quigley and Sanders, after reviewing all of the facts in the transaction, and calling attention to the charges made, concludes by endorsing the action of the Attorney General.

The minority report, signed by these two, held that the legal proposition of the Attorney General had no right to make a compromise.

The only difference in the two reports will be that one holds he had a legal right to make the compromise, while the other will hold that he had not.

This *Fleming News* says a telegram reached there Tuesday announcing the death of Kansas City, Mo., of C. C. Davis, who went from there to that city some twelve years ago. No particulars are known of this man.

THE TARIFFS,

As Reported to the Full Senate Committee.

Iron to Pay Forty Cents and Coal Forty Cents.

Sugar Taxed One Cent a Pound—Whisky Bonded Period Extended to Eight Years With the Tax Fixed at \$1.10 Per Gallon—Lumber Bans Free.

WASHINGTON, March 9.—The Wilson tariff bill, which passed the house of representatives February 1, was laid before the full membership of the senate committee on finance Thursday morning at 11 o'clock in the amended form which that committee finally agreed after one month's consideration and numerous changes of front upon all the more important objects of taxation.

The chief features upon which public interest centered were the sugar, iron, coal, steel, wool and its manufacture, cotton manufacturers and the internal revenue taxes on whisky and tobacco.

The sugar provision is as follows: All sugars, tank bottoms, shrubs of sugar, juice of sugar cane, molasses, concentrated molasses, saccharin and concentrated molasses testing by the polariscope not above 50 degrees, shall pay a duty of 1 cent per pound, and for every additional degree or fraction of a degree above 50, and not above 90, a duty of 1 cent per pound additional, and above 90 and not above 96 degrees, for every additional degree or fraction of a degree shown by the polariscope, shall pay a duty of 2 cents per pound; molasses testing not above 50 degrees by the polariscope shall pay a duty of 2 cents per gallon; molasses testing above 50 degrees shall pay a duty of 4 cents per gallon. Iron ore, including manganese from ore, also the mineral from burnt pyrites, 40 cents per ton.

Coal is taken from the free list and made dutiable also at 40 cents a ton and coke at 15 cents.

Lead ore, which, in the Wilson bill, was 15 percent ad valorem, and iron and steel, four-fifths of 1 cent per pound; provided, that all silver ore and all other ores containing lead shall pay a duty of three-fourths of 1 cent per pound on the lead contained therein, according to sample and assay at the port of entry.

Raw cotton is left on the free list exactly as in the Wilson bill, the provision to go into effect August 2, 1894.

In manufactures of wool the valuations as given in the Wilson bill are stricken out, and the schedules now read as follows: Wool of the sheep, hair of the camel, goat, mohair, camel's hair, mohair, which has been improved or advanced beyond its original condition as waste by the use of machinery or the application of labor, or both, and carbonized wool, shall be subject to a duty of 15 per cent ad valorem.

On blankets, pats, wool and blankets, pats, wool and blankets, valuated at more than 30 cents per pound, 30 per cent ad valorem.

On women's and children's dress goods composed wholly or in part of wool, not specially provided for, 45 per cent ad valorem (instead of 40).

On clothing, ready-made, and articles of wearing apparel of every description, and imitations of fur, composed wholly or in part of wool, etc., 40 per cent ad valorem (instead of 45).

On webbings, gourds, suspenders, braces, belts, bindings, brida, etc., 35 per cent ad valorem (instead of 40).

Carpets remain unchanged.

The reductions in the duties for manufacturers of wool shall take effect December 2, 1894.

Articles taken from the free list are as follows:

Apples, green, ripe, dried, etc.

Beef, mutton and pork.

Bone tar, suitable for use in decolorizing sugars.

Bituminous and shale, and coal stock or cokes, meso fiber, floor matting, manila, and fiber, and other articles, including Chinese matting, dates, cocoanuts, Brazil nuts, cream nuts, gambier, guta (salted), horn strips and tins, iron ore, olives, green or prepared; orchids, lily of the valley, salvia, palma and other plants, and forcing under glass or in flowers or cuttings; poses, sausages, scincia, sugars, stained or painted window glass or painted glass.

The additions to the free list are as follows:

Any cattle, horses, sheep, or other domestic animals, which have strayed across the border to the free country, or where such domestic animals have been, or may be, driven across such boundary by the owner for pasture purposes, the same may be brought back to the United States free of duty under treasury regulations. The paragraph pertaining to strays, etc., for hats, is changed to read as follows:

Straw, chip, grass, palm-leaf, willow, osier or ratten in the form of braids, plait, laces, suitable for making or ornamenting hats, bonnets and hoods; also, straw for hats, and straw and boys' hats only, hats bands not exceeding 3/4 inches in width, and when cut in lengths not exceeding 87 inches; hats bands not exceeding 1 1/4 inches in width, and when cut in lengths not exceeding 54 inches, and hats linings composed of white or colored silk, or cotton or cotton, when cut in pieces not exceeding 18 by 15 inches or 5 by 50 inches.

Other items added are, liniments and other precious stones, cut or uncut; gold, not specifically provided for in this act, medals bestowed and accepted as honorary distinctions. To the pastime of shooting for fun "paramount, whale or other fish oils of American fisheries," the committee adds, "and all fish and other products" of such fisheries.

In defining professional books, tools and articles admitted free, the senate adds a provision which declares that things admitted free under this head shall not be construed to include theatrical scenery, properties and apparel, such as articles brought by proprietors or managers of theatrical companies or temporarily used by them in such exhibitions and not for any other person and not for sale shall be admitted free of duty.

THE ORIGINAL RIPPER.

They Have Traced Jack into an English Laundry Asylum.

NEW YORK, March 8.—A London dispatch says: The fact has developed, although so far it has been kept a profound secret, that the authorities have gotten on the track of Jack the Ripper. The information leaks out from the Scotland Yard, and has been generally confirmed by a leading officer of the metropolitan police.

The atrocious criminal, it is said, is an inmate of the government lunatic asylum at Dartmoor, in which he was incarcerated within a few weeks after he had committed the horrors that he holds no knowledge of his antecedents at the time of his commitment to the institution as an insane patient with homicidal tendencies. The Scotland yard authorities have possession of the knife, which is of Chinese make, with which the Whitechapel murders were committed.

POLLARD-BRECKINRIDGE.

At Last the Case is Solved and the肯西ongressional Makes His Fight.

WASHINGTON, March 8.—Congressman William Linton Pollard, of Kentucky, was placed on trial for his social reputation and his political life Thursday in the beginning of the suit which Madeline Vinton Pollard has brought against him to determine whether he shall pay her \$50,000 for alleged seduction.

The trial is being held in the largest courtroom in the United States court house here, which is known as the city hall from the fact that it was once the municipal building when Washington had a municipal government.

The case Thursday morning progressed rapidly, the jury having been seated, and swearing in after which an adjournment was had till Friday to give the counsel newly called into the case time to study it more thoroughly.

Gloucester Still in Bed.

LOXON, March 8.—Mr. Gladstone's condition was slightly improved Thursday morning. His symptoms of bronchitis have not increased and his cough and expectoration have ceased to annoy him. Nevertheless his physicians advised him to remain in bed. Since his indisposition Mr. Gladstone has been visited by nearly all the cabinet officers and foreign diplomats and a large number of others.

This fact is shown in a statement prepared at the office based on the official records of the patent office, which shows a total of 4,749 applications awaiting the action of the examining corps.

Not Guilty.

PEPLANTON, N. C., March 8.—The bank of Pleasanton was entered by burglars, the combination of the vault door blown out and the safe robbed of \$1,500. The safe was cracked with dynamite, but the burglars failed to open the chest in the safe, which contained about \$10,000. The safe and chest were rifled and \$600 worth of stamps taken from Postmaster Holmes' safe.

The Detective Not Concerned in the Dr. Cronin Murder.

That Is the Way the Jury in the Case Decided It.

After Four Years' Imprisonment and a Lengthy and Sensational Trial, Daniel Coughlin, the Frog, Was Acquitted on a Motion Followed the Verdict.

CHICAGO, March 9.—Daniel Coughlin is a free man. This is the first time since the morning of May 23, 1889, when he was imprisoned in the cell of Mayor Charles M. Schwab and Superintendent Cory of the Carnegie Co. The story is that Edward Sill, a clerk in the Homestead office of the Carnegie Co., discovered in January, 1891, that the armor plate records were being changed. Two records of the Carnegie Co. were forged, one start to finish, and were entered by Sill in pass books. The books were turned over by Superintendent Cory, who in turn entered them officially on the books of the company for transmission to Washington.

Sill then took his confidence in order to fully pursue the quiet investigation.

Sill one day received an order from Manager Neale to destroy all the passbooks in his care relating to the armor plates. This Sill pretended to do, but instead he took the books home with him.
